Who is Ms. Shumway? You may know her as the art teacher or that one lady who you see in the hall sometimes, you may not even know who I'm even talking about. But, she is much more than any of those things. Ms. Shumway is a 25-year-old artist, Her favorite art to create is with watercolor, oils, and dry pastels, her favorite song is The Middle, by Jimmy Eat World, just to name a few things. This will be Ms. Hannah Shumway's 4th year of teaching, but only her first year at Hurricane Middle School. Ms. Shumway has created lots of art in her life, one of her favorites is one she created for a friend's wedding using dry pastel (pictured below).

We are very glad to have Ms. Shumway at our school. Mr. Jaggi, our principal says, "Ms. Shumway student taught at HMS several years ago and we really liked how she fit in with our

1989 (Taylors Version)

By Ruby Phipps

“My name is Taylor Swift and I was born in 1989”. On October 27th, 2014 1989 came out with 13 tracks. Big Machine Records owned Taylor’s first 6 albums, “1989” being one of them. When her record deal finished she switched to another record, but Big Machine Records still owned her music and sold it. To get back the rights to her music Swift started re-recording all her albums starting with “Fearless”. On Taylor Swift’s most recent tour “The Era’s Tour” she announced “1989 (Taylor’s Version)” on August 9th, on night six at the Sofi-Stadium in Hollywood, California.

The upcoming album’s debut is October 27, 2023, with 5

tracks from the vault. Taylor announced 1989 on tour by changing all of her usually outfits for the era’s with all blue dresses, hinting to the announcement of “1989 (Taylors Version)”. “1989” signified a symbolic rebirth of her image and artistry. Freshmen Haylee Trump, when asked how she feels about the announcement, expresses “I am more excited and happy than words can describe, when I tell you I cried tears of joy when I heard that I was so happy, October 27th

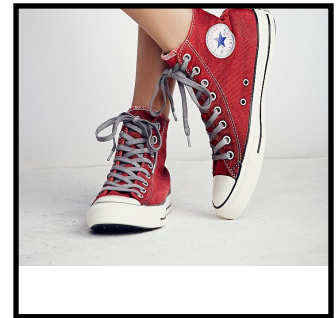

marked in my calendar and I’m so excited to listen to a whole hour of my queen and mother Taylor Swift”. It is very clear here that Haylee really is excited to listen to the new album. On the other hand when asked about the upcoming album 9th grader Austin Fulton stated “I don’t know what that is”. It is clear that this is a very big announcement for Taylor Swift fans.

Acne Tips

By Anonymous yearbook staff

Have you ever wondered what causes acne? Acne is a common skin addition that happens when hair follicles under the skin become clogged. Acne is also caused by hormonal changes, especially when you hit puberty, heavy sweating or humidity, greasy or oily cosmetic or hair products, and much more. Genevieve says, "I wash my face every night." I asked Kloey what her thoughts are on acne, she says " we shouldn't make fun of people who have acne, its just something that happens as teenagers."

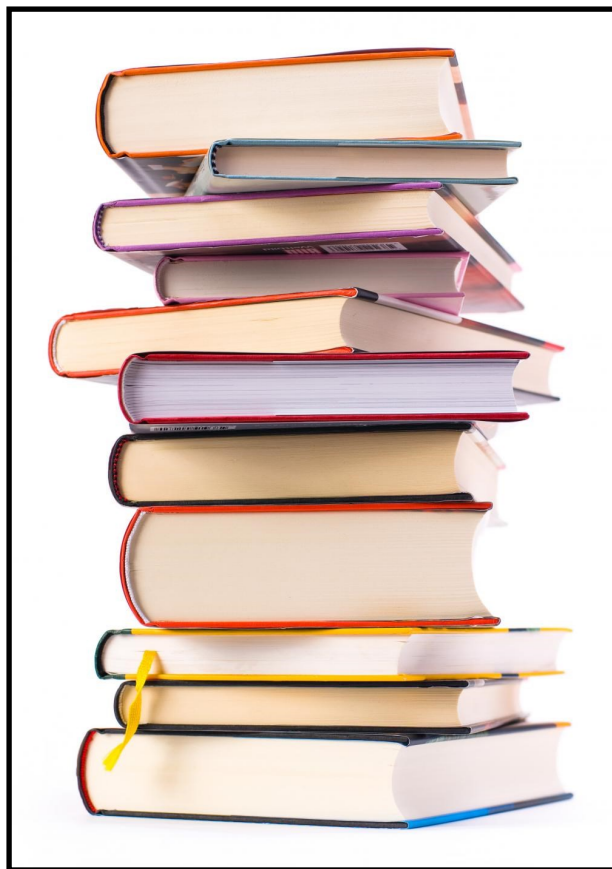

Here are some ways you can help prevent acne. Keep your face clean. Even if you don't have acne, it's important to wash your face twice daily, its not necessary but (WebMD) recommends it. Try using an acne treatment product. Dr. Caren Cambells from a California based dermatologist recommended Otc Retinoid. Experts state, " Retinoid promote skin cell turnover and cure inflammation." (Nbcnews.com, what-are-best-skin-care-products-acne-prone-skin.) Overall acne will always appear, but if you follow these tips it will help you treat your acne.

Teacher Hobbies

By Brekka Wright

We all know and love our teachers as they teach us, enlighten us and help us through the place we call school. Lets take a sneak peak in to some of our favorite teachers life's by asking them what there hobbies are. First I asked Mr. Fisher the 8th grade P.E teacher. He told me that his hobby is fishing and he likes to spend his free time doing so. He says he likes to escape to the mountains with his sons on hot days. Mr. fisher states " I enjoy going to places where there is no internet or cell phone service. I like to be disconnected from the world and other people." Clearly He loves that its quiet and that he gets to escape from the world. I asked how Mr. Fisher came to like his hobby and he told me that he grew up fishing with family and friends.

Next I asked Mr. Carter what his hobby was. He told me that he likes to go golfing! His father in law got him into golfing and he still golfs to this day. He says " I like my hobby because I get to get away from it for awhile". Everybody needs a break sometimes and golfing is Mr. Carter's! He told me that his favorite thing about his hobby is when it all comes together. Mrs. Riach told me that her hobby is going to hot yoga and burn boot camp. She said, "I have always been into fitness, and when my body started to rebel against running, I tried yoga and weight lifting. I have really loved group fitness ever since I started." Wow what power! This was a peek into our teachers lives.
